

# Ensure the Short and Long-Term Success of Your Projects with NetSuite Professional Services Automation

Trajectory has developed a full suite of services to meet your every need. We offer flexible, scalable and responsive engagement approaches, from complete project delivery, to full-time administration and even smaller project-based work.

Trajectory and the NetSuite Professional Services Automation (PSA) solution empower you to optimize resource utilization, streamline invoicing, expedite project delivery times and drive profitability.

## Features of the NetSuite PSA solution include:

- **Project Management:** Enables project collaboration between managers and team members.
- **Resource Management:** Empowers project managers to optimize resource utilization.
- **Project Accounting:** Synchronizes project activities with business financials.
- **Billing:** Automates invoicing as well as intricate time and project-based billing.
- **Timesheet Management:** Delivers accurate and timely timesheets on the go.
- **Expense Management:** Improves tracking and compliance and maximizes reporting accuracy.
- **Analytics:** Supplies robust reporting data and analytical tools in real-time.

With the NetSuite PSA solution, we can deliver the tools you need to better manage your projects, resources and finances.

## Benefits of the NetSuite PSA solution include:

- Produces a live overview of your company's performance and profitability.
- Drives project success rates and on-time project delivery.
- Enhances resource utilization using improved resource management features.
- Provides access to time and expense management reports from anywhere, any time.
- Relieves upgrade hassles with cloud-based delivery.
- Cuts hardware maintenance costs.

## Trajectory Knows NetSuite
